

2B Global's new Mailbox Kiosk Collection provides outdoor enclosures for their entire line of USPS-4C horizontal mailboxes. Featuring four distinctive styles, the mailbox kiosks compliment any architectural style.

### **USPS-4C**

Outdoor solutions for 2B Global's line of horizontal 4C mailboxes.

### **Designs**

Four distinctive designs to compliment any architectural style.

### **Finish**

Available in textured stucco, enamel paint, or Autocolor 2K.

### **Colors**

Available in four standard color combinations. The Mailbox Kiosk Collection can also be painted on-site to match any color scheme.

### **Consistent Quality**

Pre-fabricated kiosks provide consistent quality everytime.

### **Easy Installation**

Four masonry anchors to secure the base to the ground.  
Four bolts to attach the kiosk to the base.  
Four screws to install the mailbox cabinet to the kiosk.

### **Security**

All fasteners are concealed for security.\*

### **Corrosion Resistant**

All non-stainless steel panels are electro-coated with corrosion resistant primer used in the automobile industry. Our coating plant (Eisenmann from Germany) uses Cathodic Electrode Deposition (CED) technology to ensure that the steel panels are protected against severe weather condition. We use only high quality primer from PPG USA.

### **Warranty**

Our Mailbox Kiosks come with a five (5) years limited warranty against corrosion (perforation under normal use only) and manufacturing defects.

\* except for X4GG series
